

Your first concern, naturally, should be to get immediate care needed to deal with any injuries you may have sustained. Always make sure you are fully examined by a doctor as soon as possible after an accident. After that, the longer healing process begins.

Acupuncture can be of great help in the rehabilitation process by providing follow-up care to ensure quicker and more complete healing as well as monitoring your levels of function to avoid long-term health problems.

**IN CASE YOU ARE
IN AN ACCIDENT**

Even if you are unsure about the seriousness of your injuries, please call to schedule an exam appointment. Dr. Mancini is a licensed expert in determining a need for acupuncture in auto accident and personal injury cases.

Our office will work directly with your auto insurance, health insurance, attorney and other doctors, to ensure that you are financially covered for your care.

Accidents & Injuries

Emergency medical treatment can often leave some health problems unresolved.

Studies have shown that 10 years after an auto accident, 68% of victims have headaches, radiating pain, and neck pain. This statistic accounts for accident victims without stitches or major external injuries.

Auto accident victims have an 80% higher incidence of osteoarthritis and get it faster.

STEP 3

Call Your Doctor

Unless you need to be seen by emergency medical physicians, make an appointment to come in to see Dr. Mancini. Don't wait!

The sooner that Dr. Mancini can assess you and begin treatment, the better results you will have in the short- and long-term.

Acupuncture is a highly effective treatment in accelerating healing and pain relief. As a specialist within the medical system, Dr. Mancini can assure that you receive the highest quality of integrative healthcare.

Don't let money be the reason that you do not get the care you require and deserve. Did you know that your auto insurance may include medical payments that you can use in the case of an accident without any change to your premiums? If you have questions about your rights or your access to coverage in the case of an accident, ask us. We are happy to help you at any time.

Call the police and should you be injured,
call Dr. Mancini immediately.
